Mr. Stanley stated Mr. Jerry Rogers, project monitor from the State Construction Office (SCO) met with college employees, LS3P and Graka Builders on July 24 to provide the requirements to proceed with the construction of the continuing education building. Mr. Rogers provided the notice to proceed on August 13, 2018, and a groundbreaking ceremony for the building was held on August 15. Mr. Stanley reported that Mr. Rogers provided a schedule for monthly construction meetings that will be held on the third Wednesday of each month. Mr. Stanley informed the trustees that they may attend the meetings. Four County Electric Membership Corporation will be providing the transformer for the college and Mr. Rogers has requested that the purchase be done early in the project. A sub-contractor for the project brought up the issue of a water main for the building that runs beneath an oak tree on the campus. Mr. Stanley stated that the project began on August 13 and the first monthly construction meeting was held on August 16. Four issues were discussed during the meeting: the transformer, the water main that is running below the oak tree, the building pad that is also below the oak tree, and the UL stamp of anything that is plugged in or hardwired in the building must be reported to the SCO. Mr. Stanley reported that LS3P revised the drawings to move the building back 20 feet to resolve the issues with the oak trees and about 14 parking spaces will be lost with the move.

Mr. Stanley reported that the second lowest bidder, Construction Systems Inc. (CSI), had been awarded the construction contract for the STEM building due to DeVane Builders being disqualified by SCO. Mr. Stanley stated that an extension has been provided by the Economic Development Administration (EDA) for the begin date for construction of the STEM building. Construction on the building must now begin by October 12, 2018. Mr. Stanley stated the construction contracts had been received for CSI on August 20 and he reported that the contracts were mailed out on the same day. The SCO received the documents on August 24, reviewed the documents and contacted Mr. Stanley with four
items that need correction. Mr. Stanley stated that he has been in contact with CSI and he has not seen that they say have responded to the issues with the SCO. Members of the board suggested that Mr. Stanley visit their office in Lumberton, NC, to be assured that the information is provided to the SCO in a timely manner.

Mr. Hammond made the motion that Mr. Stanley contact CSI by telephone on Wednesday, August 29, and ask that the issues be addressed Friday, August 31. If the issues have not been addressed by this date, Mr. Stanley will go to the CSI office and inform them that the board of trustees has been discussing the lack of contact from the company and is concerned. Mr. Dickerson seconded the motion and it passed.

Mr. Grady stated that he would stay in contact with Mr. Stanley in the event that he would need to provide a letter to CSI stating the issues and the college’s concern of the matter.

The college is compliant with the amount of holiday leave; however, the policy no longer allows administrative leave for employees. If the college is closed due to inclement weather, employees must use annual leave, special leave granted by the General Assembly, accumulated compensatory leave, or leave without pay during time on days other than holidays when classes are not scheduled to be in session.

Ms. Andrews made the motion to accept the revised holidays and administrative leave policy as presented. The motion was seconded by Mr. Britt and carried unanimously.
