## PROGRAM FACT SHEET

### Associate in Applied Science General Occupational Technology

A55280

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from associate degree level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their fields of employment, and become qualified for a wide range of entry-level employment opportunities.
